January 6th, 2017

Dear Current 8th – 11th Grade Parent/Guardian:

Through Ohio Senate Bill 311, the State Board of Education has adopted a plan that enables students to “earn units of high school credit based on demonstration of subject area competency, instead of or in combination with completing hours of classroom instruction”. This plan is referred to as “Credit Flexibility”.

The Wyoming City School District has developed a credit flexibility plan that will enable students to earn high school credit by: a) completing coursework, b) testing out of or demonstrating mastery of course content, c) pursuing one or more educational options in accordance with the District’s Credit Flexibility plan, or d) any combination of the above. This plan went into effect beginning with the 2011-2012 school year.

Students choosing to take advantage of this opportunity must complete a Wyoming High School Credit Flexibility Application and submit it to the Middle School or High School Guidance Office no later than **March 1st 2017**. *Applications will be available on the High School website (www.wyomingcityschools.org) at the end of this month.* All applicants will receive notification of approval within seven calendar days in order to accommodate appropriate schedule changes. Any student who applies after March 1st will not be eligible for the credit flexibility option during the 2017-2018 school year.

Please note that this plan and application process also apply to summer physical education classes and online Health. Therefore, if you wish your child to take online Health or physical education during the summer, the above-mentioned application must be completed no later than March 1st.

Templates for the most requested Credit Flex classes (Lakota and Cincinnati Country Day Summer PE and BYU online Health 041) are available online and in the Middle School and High School Guidance Offices. You will need to check Lakota and CCD’s websites for the 2017 summer PE dates and costs. They were not available as of today.
